WEEE - Waste of Electric and Electronic Equipment

English

The symbol  on the product or on its packing indicates that this product may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Deutsch

Das Symbol  auf dem Produkt bzw. auf der Produktverpackung deutet an, dass das Produkt nicht mit dem Haushaltsmüll entsorgt werden darf. Stattdessen ist es zur Entsorgung an eine geeignete Sammelstelle für das Recycling von elektrischen und elektronischen Geräten zu bringen. Durch die korrekte Entsorgung helfen Sie mit, potenziellen negativen Einflüssen auf die Umwelt und die Gesundheit vorzubeugen, die durch eine unangemessene Entsorgung dieses Produkts entstehen könnten. Genauere Informationen zur Wiederverwertung dieses Produkts erhalten Sie von Ihrer Stadtverwaltung, der Müllabfuhr vor Ort oder dem Geschäft, in dem Sie dieses Produkt erworben haben.

Français

Le symbole  sur le produit ou sur son emballage indique que ce produit ne doit pas être traité comme un déchet ménager. Il doit au contraire être remis au point de collecte correspondant pour le recyclage du matériel électrique et électronique. En procédant de cette manière, vous aiderez à prévenir les conséquences potentiellement négatives pour l'environnement et la santé humaine que pourrait causer un traitement inadéquat du rejet de ce produit. Pour plus ample information sur le recyclage de ce produit, veuillez prendre contact avec votre bureau municipal, votre service de collecte de déchets ménagers ou le magasin où vous avez acheté le produit.

Español

El símbolo  que aparece en el producto o en su embalaje indica que este producto no puede ser tratado como residuo doméstico. En su lugar, debe ser entregado en el correspondiente punto de recogida para el reciclado de equipos eléctricos y electrónicos. Al garantizar la adecuada eliminación de este producto, ayudará a evitar las posibles consecuencias negativas para el medio ambiente y la salud de las personas que se producirían a causa de una inadecuada manipulación de los residuos de este producto. Para obtener información más detallada acerca del reciclaje de este producto, póngase en contacto con la oficina local de su ciudad, el servicio de recogida de residuos domésticos o el establecimiento en el que ha adquirido el producto.

Português

Símbolo  no produto ou na embalagem indica que esse produto não deve ser tratado como um resíduo doméstico. Ao contrário, deve ser levado ao local de recolha adequado para a reciclagem de equipamentos electroelectrónicos. Ao se assegurar que o tratamento deste equipamento foi adequado, estará a ajudar a prevenir consequências potenciais ao meio ambiente e à saúde humana que poderiam ser causadas pelo manejo inapropriado do produto. Para mais informações sobre a reciclagem deste produto, entre em contacto com as autoridades locais, com o órgão responsável pela recolha de lixo ou a loja onde o produto foi adquirido.

Italiano

Il simbolo  sul prodotto o sulla confezione indica che questo prodotto non può essere smaltito fra i rifiuti domestici. Deve invece essere consegnato a un centro di raccolta autorizzato per il riciclaggio dei dispositivi elettrici ed elettronici. Smaltendo questo prodotto in modo corretto, si contribuisce a ridurre l'impatto ambientale e sull'uomo. Per maggiori informazioni sul riciclaggio di questo prodotto, contattare il proprio comune, il centro di raccolta dei rifiuti urbani locale o il rivenditore.

Dust bag full indicator:

The dust bag is full and needs to be changed when the indicator is completely red.

Safety instructions

- Do not use the machine without dust bag and filters properly fitted.
- This machine is not intended for the suction of hazardous materials or gas, doing so may expose people to serious health risks.
- The machine must not be used for the suction of water or other liquids.
- Do not vacuum sharp objects such as needles or pieces of glass.
- Do not pick up anything that is burning or smoking such as cigarettes, matches or hot ashes.
- Use and store this machine indoors and in a dry environment.
- Do not use the machine outdoors.
- Do not handle the machine with wet hands.
- Turn off the machine before unplugging.
- To unplug, grasp the plug, not by pulling on the cord. Do not carry or pull the machine by the cord.
- The machine must not be used if the cord shows any sign of damage. Regularly inspect the cord for damage, in particular if it has been crushed, shut in a door or run over.
- Do not use the machine if it appears faulty. Have the machine inspected by an authorized service center if the machine has been dropped, damaged, left outdoors or has been exposed to water.
- No changes or modifications to the mechanical or electrical safety devices should be made.
- All repairs must be carried out by an authorized service center.
- Use only original dust bags, original filters and original accessories from your local dealer. Use of unauthorized dust bags and filters will void the warranty.
- Turn off the machine and unplug before starting dust bag or filter change, grasp the

- plug, not by pulling on the cord.
- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
 - Children shall be supervised to make sure that they do not play with the appliance.
 - Cleaning and user maintenance shall not be made by children without supervision.
 - If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or similiary qualified person in order to avoid a hazard.

Instructions for use

Before using the machine make sure that the voltage shown on the rating plate underneath the machine corresponds with the mains voltage.

Start and stop

Start

Pull out the cord and plug the machine to a wall socket.

Push the On/Off button and adjust the power level.

Stop

Turn off the machine and unplug. Unplug by grasping the plug, not by pulling on the cord.

1 Connecting hose, tube and nozzles

1. Insert the hose connector into the suction inlet.
2. Connect the bent tube to the tube.
3. Connect the tube to the nozzle.
4. The tube is telescopic and can be adjusted to your height. Push the adjusting button to extend the tube, and pull back to shorten, to desired length.

Change of dust bag and filters

The size and quality of the dust bag and filters affect the machine efficiency. Use of non original dust bags or non original filters can cause restricted air flow which may lead to machine overload. Using non-original dust bag or filters will void the warranty.

2 Changing the dust bag

The dust bag indicator turns completely red when the dust bag needs to be changed.

Always use original dust bags.

3 Changing the pre-filter

The pre-filter protects the motor by absorbing micro-particles that the dust bag can not keep. Change the pre-filter with every fifth dust bag. The pre-filter is located behind the dust bag. Always use original filters.

4 Changing the filter

The (H)EPA filter cleans the exhaust air from micro particles the dust bag can not keep. The (H)EPA filter can not be brushed or washed clean if not mentioned. Change the (H)EPA filter once a year.

4a One & One Reach:

Open the filter door by pressing the button and pulling the door out. Place the new filter in the frame. Press the filter door in place again with a hard finger pressure.

4b

One Prime & One Clean Air:

Open the filter door by pulling out the catch. Remove the door. Place the new filter in the frame and close the filter door again. Lock the door by pushing the catch back in place.

Adjust the suction power

Sliding valve on the bent tube

The suction power is maximal with the sliding valve closed and minimal when all open. Adjust the suction power by putting the sliding valve in the desired position.

Power regulation

The suction power is adjusted by turning the button on the machine.

5 Parking the tube and nozzle

There are two grooves for parking. One located on the underside to use when machine stands on the back, and the other on the back to use when the machine is standing on its wheels.

6 Storability

Release the hose strap on the front of the machine. Then raise the transport handle and wrap the hose around the machine. Remount the strap.

Thermal fuse

The machine is fitted with a thermal fuse, which prevents the machine from overheating. If the thermal fuse blows, the machine automatically switches off the motor and must cool before it can be started again.

Restart

1. Turn off the machine and unplug from the wall socket.
2. See to that nothing blocks the air flow through the bent tube, hose, tube, nozzle, dust bag or filters.
3. Let the machine cool.
4. Plug in the machine again and push the start button. The machine will not start until cool enough. If the machine does not start turn it off and unplug. Try again in a while.

Cleaning tips

Adjust the suction power by means of the power regulation or the sliding valve on the bent tube.

7 Upholstery nozzle

Use the upholstery nozzle for upholstered furniture.

8 Brush nozzle

Use the brush nozzle for curtains and window sills.

9 Hard floor nozzle

Use the nozzle for hard floors (only as standard on selected models)

10 Combination nozzle

Adjust the combination nozzle depending on type of floor.

11 Turbo nozzle

Use the turbo nozzle for efficient carpet cleaning (only as standard on selected models).

The models can include different nozzles as standard.

Trouble shooting

Repair or service of electrical components such as cord or motor, must only be carried out by an authorized service center.

If the machine does not start	Check that the plug is correctly fitted to the wall socket.
	A fuse in the building may have blown and needs to be changed.
	The cord or plug may be damaged and must be repaired by an authorized service center.
Reduced suction power	The dust bag may be full and needs to be changed, see instructions.
	The pre-filter, the (H)EPA filter can be blocked and have to be changed, see instructions.
	The bent tube, hose, tube or nozzle may be blocked and needs to be cleaned.
If the machine stops	The thermal fuse may have blown, see instructions.

Service and maintenance

- Store the machine indoors and in a dry environment.
- Change the pre-filter with every fifth dust bag. The dust bag package includes five dust bags and one pre-filter.
- Change the (H)EPA filter once a year
- Clean the machine surface with a dry cloth or a damp cloth with a little cleaning agent.
- Order original accessories from a local dealer.
- Service – contact your local dealer.

Recycling and scrapping

Recycle the wrapping and scrap the machine according to recommendations from the local authorities. Cut the cord as short as possible to avoid someone getting injured on the scrapped machine.

Environmental commitment

This machine is designed with the environment in mind. All plastic parts are duly marked for recycling.

Responsibility

Nilfisk disclaim all responsibility for all damage caused by incorrect use or modification of the machine.

Guarantee

The warranty can vary between different countries. Contact your local dealer for information.

Guarantee and service

This Nilfisk One Series vacuum cleaner is covered by a two (2) year guarantee on the machine, which covers the motor, cable rewriter, switch and casing. The nozzles, filters, hoses, tubes and other accessories are covered twelve months due to manufacturing fault only and excludes wear and tear.

EN

FI

ZH

EN

The guarantee includes spare parts and labour costs, and covers manufacturing and material defects that may occur during normal domestic use.

Service under the guarantee will only be performed if it can be proven that the defect occurred within the product's guarantee period (a correctly completed guarantee certificate or printed/stamped cash register receipt with date and product type) and on the condition that the vacuum cleaner was bought as a new product and distributed by Nilfisk.

In the event of the repair of defects, the customer must contact Nilfisk to be directed to a service agent at the customer's own expense.

Upon completion of any repairs necessary, the vacuum cleaner will be returned to the customer at the risk and expense of Nilfisk.

DE

FR

ES

PT

IT

NL

SV

NO

The guarantee does not cover:

- Normal wear and tear of accessories and filters.
- Defects or damage occurring as a direct or indirect result of incorrect use - such as the vacuuming of rubble, hot ashes or carpet deodorant powder.
- Abuse, loss or lack of maintenance as described in *User Manual*.
- If the machine has been used for home renovations.
- If the machine has been used for suction of water, plaster dust or sawdust.

Nor will it cover incorrect or poor configuration, i.e. setting up or connection, nor fire-damage, fire, lightning strike or unusual voltage fluctuations or any other electrical disturbances such as defective fuses or defective electrical installations on the supply grid, and defects or damage in general that Nilfisk consider to be the result of causes other than manufacturing and material defects.

The guarantee becomes void:

- If a defect is caused by the use of non-original Nilfisk dust bags and filters.
- If the identity number is removed from the vacuum cleaner.
- If the vacuum cleaner has been repaired by a non-Nilfisk authorized dealer.
- If the machine is used in a commercial environment, i.e. building contractors, cleaning contractors, professional trades or any other non-domestic usage.

The guarantee is valid in:

Denmark, Sweden, Norway, Great Britain, Ireland, Belgium, Holland, France, Germany, Poland, Russia, Austria, Switzerland, Spain, Portugal, Australia and New Zealand, Estonia, Latvia, Lithuania, Hungary, Greece, Slovenia, Slovakia, The Czech Republic, Italy, Finland, Bulgaria, Romania and Turkey.

Addendum Australia:

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Nilfisk vacuum cleaners for domestic use are warranted for 2 years from the date of purchase by:

Nilfisk Pty Ltd
Unit 1/13 Bessemer Street
Blacktown NSW 2148
Phone: 1300 556 710
E-mail: Warranty@nilfisk.com.au

Find your local service agent here:
